I specialize in designing and maintaining cloud telephony applications using the latest technologies. My expertise includes front-end development with Angular 12, backend development with CodeIgniter 4, and integrating various functionalities using Python.

### Key Responsibilities:

- Developing and maintaining robust cloud telephony applications.
- Crafting user-friendly interfaces with Angular 12.
- Building and managing efficient backend services using CodeIgniter 4.
- Leveraging Python for advanced integrations and functionalities.
- Collaborating with cross-functional teams to deliver new features.
- Ensuring application performance, quality, and responsiveness.
- Identifying and resolving performance bottlenecks and bugs.
- Maintaining high standards of code quality and organization.

I am passionate about creating innovative cloud telephony solutions and thrive in fast-paced, dynamic environments.
